9<sup>th</sup> September 2025

Dear Parents/Carers of students in Year 10,

**Welcome to Key Stage 4**

We were delighted to welcome back our Year 10 students to school after the summer break with a year group assembly last week, and we hope that the first few days of lessons have excited them about the learning opportunities to come.

Year 10 is the beginning of a crucial journey for our students where their successes and outcomes will be rewards for the hard work and effort that they put in over the next two years. Building on the firm foundations of KS3, we will be continuing to support their learning and development as resilient life-long learners.

**Year 10 Information Evening**

As we continue to work in collaboration, we are writing to share a date for your diary for our parents and carers information evening: **Monday 29<sup>th</sup> September at 6.00pm** in the main school hall. This short 45-minute presentation will give an overview of the GCSE journey, share key messages, and provide information on the ways you are able to support student success at home.

To allow for capacity, this is for parents/carers only – we will be continuing to share information with students in school as we support them through the process of their start to Year 10.

We are really looking forward to working with Year 10 on their GCSE journey, and have high expectations for their future achievements, both academically and pastorally.

If you have any specific queries regarding Year 10 prior to this information evening please do not hesitate to get in touch, and for the individual support of students at the start of the year please contact tutors in the first instance.

Yours sincerely

Claire Murray

**Assistant Headteacher**
