9th September 2025

Dear Parents/Carers of students in Year 11,

Welcome to Year 11

We were delighted to welcome back our Year 11 students to school after the summer break with a year group assembly last week, and we hope that the first few days of lessons have excited them about the learning opportunities to come.

Year 11 is a crucial year for our students where their successes and outcomes will be rewards for the hard work and effort they have put in through their KS4 years. Building on the firm foundations and Mock examinations of Year 10, we will be continuing to support their learning and development as resilient life-long learners.

Year 11 Information Evening

As we continue to work in collaboration, we are writing to share a date for your diary for our parents and carers information evening: **Wednesday 24th September at 6.00pm** in the main school hall. This short 45-minute presentation will give an overview of the Year 11 year, share key messages, and provide information on the ways you are able to support student success at home.

To allow for capacity, this is for parents/carers only – we will be continuing to share information with students in school as we support them through the process of Year 11.

We are really looking forward to continuing to work with Year 11 on their GCSE journey, and have high expectations for their future achievements, both academically and pastorally.

If you have any specific queries regarding Year 11 prior to this information evening please do not hesitate to get in touch, and for the individual support of students at the start of the year please contact tutors in the first instance.

Yours sincerely

Claire Murray
Assistant Headteacher
